Subject: NAMLET meeting invitation -please RSVP
Importance: High

Hi,

The next NAMLET meeting is scheduled for April 9th from 1-4 pm, and will be held at the USGS office at 2730 North Deer Run Road in Carson City.

I know some of you will be at the NvMA Environmental Committee meeting in Battle Mountain, or otherwise unable to attend.

If you have time to call in for part of the meeting, the call-in information is provided below:

Number: 877-810-9415

Access #: 1424360#

The agenda is broadly outlined below:

I. Introductions and identify any action items from last meeting

II. Broad purpose for today's meeting: site list discussions to begin to consolidate a common list for both reclamation projects and assessment work. How are decisions made?

III. Types of work likely needed (assessment, monitoring, background studies, pilot studies, design, reclamation work)

IV. Specific site discussions (short list), and broadly ranking into three tiers (high, medium, low); some sites are shovel-ready now. What is the timeline for sites on shovel-ready list? What is the timeline for reclamation work for sites not on current shovel-ready list?

V. Funding gaps and funding opportunities discussion:

a. Supplemental Environmental Projects –brief discussion on source, types of projects and funding ranges

b. AML Environmental Trust –update on status and direction, outlook on timeline

c. EPA Grants

d. RAMS through Army Corps of Engineers –cannot be used for construction work; cost share requirements for non-database projects to non-Federal agencies.

e. NGOs (Trout Unlimited)

f. Others??

VI. Agendas for future meetings: 2 of 3 meetings focused on site discussions, and 1 annual meeting can include technical presentations and discussions as well

VII. Additional items not identified above, such as a creation of an annual combined Nevada AML Report.

VIII. Wrap-up, next meeting, follow-up on action items

Thanks for your interest and participation in Nevada's Abandoned Mine Lands environmental work.

I hope to see you there.

Thanks,

Jeryl
